INTRODUCTION

Incubation Centre at Hiralal Mazumdar Memorial College for Women is place and gateway for the students into the celebrated world of creativity and area of self-sufficiency. HMMCW set the path for entrepreneurship and fruitfulness of it by hands-on training in the fields of creativity into practical market. Our Incubation Centre named 'Sankalpa' means determination; determination for building self-resiliency, self-sustainability and self-help.

At the moment, Incubation Center, HMMCW, reaches the market through partnerships with other institutions and occasional exhibitions both on and off campus. The goal of the Incubation Center's unit is to create products using handcrafted methods and sustainable resources. The center offers students seed money to begin and maintain exhibitions and get expertise in product sales.

Folk art or adapted art encompasses all artistic and craft creations, is created using reusable, environmentally secure components. Our Adapted Art work involves an assortment of media and goods that are produced locally. The Center uses a range of media and materials to focus on "painting" as a creative resource. By learning painting through 'Painting and modern Arts' Students gain knowledge and skill to use mix-media and various modern techniques like quick painting methods, With Jewelry-Making our girls can easily engage themselves in crafting of handmade and sustainable jewelry; also, they make pickles and papads. All of these three courses are certificated course registered by WBSU.

CHAPTER 1

ART AND CRAFT

Art and Craft, is a catchall phrase for creative practices that fall into the category of either art or craft. Anything that can be considered decorative design or handicraft falls under the umbrella of art and craft. Art has always been an important part of Indian heritage and culture. This course advances one's knowledge of the same while simultaneously imparting skills in the field.

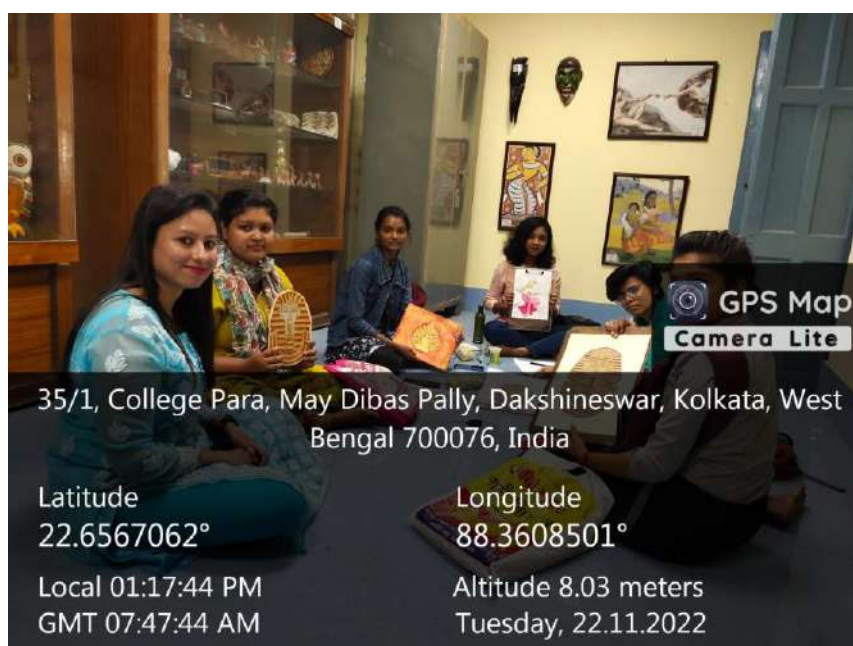

Art and craft 3-month certificate course introduced in Hiralal Mazumdar Memorial College for Women from the year of 2021 and after getting a huge response from the students of our college (Hiralal Mazumdar Memorial College for Women), and keeping in mind of student's interest in art and craft, a memorandum of understanding (MoU) was made in between Hiralal Mazumdar Memorial College for Women and Pidilite Industries Private Ltd. from the year of 2022.

The curriculum broadly designed for 36 hours (in 3 months) which covers core components like; elements and principles of art, Art history, Art education, Aesthetics theories and perform practical artworks on pot painting, fabric painting, fabric jewellery, Kantha stitch, pipli, and various other traditional and exotic art works.

This course is open to all students of our college interested in art and craft. Enthusiastic students took admission in this 3-month certificate course in art and craft and received certificates after completion of the course. Students also get chance to exhibit their art works in various exhibitions organised in Hiralal Mazumdar Memorial College for Women, Dakshineswar and various other colleges like P.N. Aspirants are also recommended to pursue a Diploma in Art and Craft course from a reputed institution in future. This 3-month certificate course in art and craft can be a useful point in the resume when applying for jobs like teachers, art instructors, etc.

CHAPTER 2

Painting And Modern Art

Painting And Modern Art -it is not just a course, it is more like a journey. In this journey, we'll unravel the vibrant tapestry of modern art, exploring its diverse styles, influential movements, and the artists who shaped the blank sheet or canvas of contemporary young minds.

This course enables one to explore the dynamic realm of creativity, regardless of your level of artistic ability. We'll explore the development of artistic expression from the vibrant brushstrokes of Impressionism on paper to the imaginative work on items like clay or glass art. "Painting and Modern Art" is more than just a course; it's an invitation to learn about, admire, and participate in the dynamic history of modern art via captivating lectures, practical exercises, and a celebration of individual creativity. Together, anyone can paint a vibrant picture.

The primary objective of this course is to provide participants with a comprehensive understanding of painting and modern art, encompassing creativity, techniques, and the worth of these creations. Through this exploration, participants will experience:

Hands-On Learning: By using practical, hands-on activities to apply learned concepts and techniques. Foster personal artistic growth and experimentation while gaining a practical understanding of various artistic methods.

Critical Thinking: Encourage critical thinking about art by analyzing and discussing the significance of artworks, considering cultural and historical contexts, and exploring the evolving nature of contemporary artistic practices.

Individual Creative Development: Provide a platform for participants to discover and develop their unique artistic voice. Encourage creative self-expression and the exploration of diverse artistic styles.

Community Engagement: Foster a sense of community among participants through collaborative discussions, exhibitions, critiques, and shared creative experiences. Encourage the exchange of ideas and perspectives to enrich the learning process.

Inspiration for Continued Exploration: We often arrange exhibitions not in our college campus only but in other neighbouring colleges to Inspire participants to continue their exploration of modern art beyond the course, fostering a lifelong appreciation for the arts and an ongoing connection to the ever-evolving world of contemporary artistic expression.

The goal of this course is to nurture participants' understanding and appreciation of painting and modern art, encourage personal creative development, and critical thinking about artworks, arrange some exhibitions to showcase their innovative creations, inspire them to make sellable products, generate entrepreneurship among them and a lasting connection to the dynamic world of contemporary artistic expression

The intended outcome of this course is for participants to emerge with enhanced knowledge and appreciation of painting and modern art. They already developed practical skills through hands-on activities, cultivated their own artistic voice, engaged in critical analysis of artworks, and established a lasting connection to the evolving landscape of contemporary art. Ultimately, participants are expected to carry their newfound understanding and creative inspiration beyond the course, contributing to their ongoing artistic growth and cultural awareness. They expressed their wish to participate in the exhibition of other outside organizations and various winter melas by their own will. Already they have started selling their product to other people outside through online mode.

CHAPTER 4

Jewelry Making

Jewelry Making or creating jewelry has its roots in the thousands of years that past when jewelry was made by ancient societies for personal decoration. Artists created jewelry that ranged from shells on hemp threads to tiaras and crowns worn by royalty, all intended to showcase diamonds, communicate faith, and symbolize social standing. Nearly everyone may now acquire exquisite jewelry because to the constant discovery of new jewels, precious metals, and ornamental materials throughout history, as well as advancements in metallurgy and technologies.

At HMMCW, this course offers students to use sustainable materials like paper, cloths or fabrics, threads, woods, clay etc. and encourage everyone to make jewelry by hand. Jewelry made at our course can be worn in daily-life and occasion for celebration and rejoice. This course is open to all for every student and alumna as well. This is a registered certificate offered by our college and university with duration of 36 months. Students enrolled for the course have to sit for an examination to get a completion certificate at the end.

As the many goals in tunes with use of sustainable materials, the course and unit encourage and educate students with use of natural semi-precious to simple materials to create a product of beauty and refinement. Students and any who join the course also benefit by learning with doing and handling of small but useful tools and techniques. These would be instrumental for them to run their own small enterprises. The course includes- Introduction of materials, Usage of tools, GS jewellery, Clay jewellery, Fabric jewellery, Jute jewellery and Paper jewellery

CHAPTER 4

Preparing phenyl & Hand wash for Self-Entrepreneurship

In the current modern days, due to the increasing consciousness towards cleanliness and safety, usage of phenyl and hand wash is increasing day by day. The department chemistry, under the banner of incubation centre, has planned to give hands on training to BSc Chemistry students for making of phenyl & handwash. Along with hands on training, girls students was also planned to give exposure in building start-up because the manufacturing business of phenyl and handwash can be started with a low investment on small scale. It is easy to start in small area and profit margins in these products are high.

With this thought in mind, chemistry department has started certificate course on **‘Preparing phenyl and hand wash for self-entrepreneurship’** in the session 2021-22.

Journey has started on 2021-22 with huge response from students and now, every year, a good number of students are enrolling themselves in this certificate course.

I can gladly say that,
That was a successful counseling session but most of the students are from 1st or 2nd year,
We communicate with all candidates who attend the session but they are not interested now.
No one come for free classes from your reputed college.
