## Department of Botany

The Department organizes **Student seminar** every year and students are urged to publish papers in **Departmental journal**. **Wall magazines** and various **posters** are also published regularly. The department organizes frequent local as well as national **excursions** to have a comprehensive idea on the floristic composition and biodiversity of different regions of India. Report writing as a part of curriculum in addition is also encouraged. Visits to Botanical Garden and CNH with the students of Botany Hons. and General is a regular practice. **Special lectures** by subject experts are regularly organized. **Plantation programs** are undertaken within the college campus. The Department of Botany yearly celebrates **Departmental Day**, where the students of the previous year are invited to share their experiences with the juniors.

The global pandemic changed the world. Every human being in this planet suffered the consequences of the lockdown. However, the Department of Botany continued its academic ventures through **regular online classes** to ensure that students continue to receive quality education during these unfavourable conditions. The faculties along with the students upskilled themselves. For effectively utilising this adverse period, they participated in various International, National and State Level **workshops, conferences, webinars, awareness programmes** and **special lectures**. The students are mentored and inspired to participate in **virtual internship programs**.
